★ CAPABILITY STATEMENT

Controls, IT, and Software Solutions for Mission-Critical Federal Facilities

SBA-certified Women-Owned Small Business delivering control systems, IT infrastructure, software and support services for federal agencies.

11 Federal awards,
FY24–FY26

8 States of
performance

3 Option periods
exercised

34 Bids on an Air
Force win

★ CORE CAPABILITIES AND SOLUTIONS

Controls & OT Engineering	Engineer, integrate, sustain and modernize building automation, power monitoring and industrial control systems at critical federal facilities. PLC and SCADA engineering ■ Control system sustainment and upgrades ■ BAS front-end modernization ■ Managed OT services ■ Electrical power monitoring (EPMS) ■ Multi-vendor integration
IT Infrastructure Lifecycle	Plan and execute data center relocations, network center moves and legacy telecom decommissioning to ready IT spaces for what comes next. Data center and network center relocation ■ Legacy telecom decommissioning ■ Data center facility upkeep ■ Migration and cutover planning ■ IT space power and environmental monitoring
Data Engineering, Software, and Hosting	Design and build to-spec software, data pipelines and AI solutions, and host and sustain the applications that federal teams depend on. Managed web and application hosting ■ Enterprise software sustainment ■ SCADA application development ■ Custom web and application development ■ Data engineering and analytics
ESD, IT Helpdesk, and Administrative Support	Staff and run front-desk, records, enterprise service desk and IT helpdesk functions with compliant, mission-ready personnel. Front-desk and customer service staffing ■ Data entry and records support ■ Enterprise service desk (ESD) support ■ IT helpdesk and end-user support ■ Administrative and technical staffing
Program Management & Advisory	Every Arayna award runs under structured project management. We also deliver assessments, modernization roadmaps and owner's representation as standalone work. Program and project management ■ Current-state assessments and modernization roadmaps ■ Owner's representation ■ Energy and sustainability consulting

★ FEDERAL PAST PERFORMANCE

Department of the Air Force nuclear-enterprise munitions facility in the Southwest
Maintained and tested the Allen-Bradley PLC and SCADA controls, valves, pressure sensors and HVAC interlocks of a blast containment safety system at a munitions facility.

Air Force Test Center Eglin AFB, FL
Decommissioned legacy Nortel telecommunications switching equipment, with its battery plant power cabling and line cabling, across three Eglin AFB sites within a 46-day period of performance.

Federal law-enforcement intellectual property enforcement program (DHS)
Provided managed hosting for the government notices displayed on domains seized in intellectual property enforcement actions, with visitor data retrieval and monthly reporting to the agency.

Air Force Global Strike Command Minot AFB, ND
Performed on-base front desk data entry for Air Force Global Strike Command family readiness services at Minot AFB, following selection from a field of 34 bids.
